# WELCOME TO THE RANGE OF COMMERCIAL FOOD SERVICE PRODUCTS FROM PANASONIC

Whilst you are probably aware of the Panasonic brand, what you probably didn't know is that Panasonic have been supplying commercial kitchens with products for over 50 years. We have been supplying international customers with a wide range of Commercial Food Service products, specifically designed to meet the needs of the Hospitality industry.

Based on our success globally including Europe, North America, Japan, China and other parts of Asia. Panasonic is now bringing some of these ranges to Australia for the Food Service and Hospitality market.

Panasonic has a long history of producing quality products and in 2018 celebrated our 100 year anniversary since foundation. This longevity has been built on the back of long relationships with the market and working pro-actively with our customers to build a better future.

The Commercial Food Services division has a dedicated B2B team that will manage the launch of an exciting new future for the Panasonic brand.

We will be talking to you, our customers, on expanding the range in the future and hope you enjoy using our products.

# WHY PANASONIC

Panasonic prides itself on producing premium products that are built to last, essential in a commercial kitchen environment. We build-in unique design features, conduct extensive testing and manage strict quality assessment procedures, that have resulted in a solid track record of performing in any conditions. We don't compromise on quality.

To ensure a dedicated B2B approach, we operate from within the Hussmann Australia Pty Ltd (a Panasonic company), a market leader in the manufacture and supply of supermarket fridge and freezer cabinets across Australia. In Sydney we have over 17,000 sq metres of factory/warehouse where we keep a vast range of parts and extensive stock to support fast turnaround orders and speedy repairs. It is this network and warehousing capacity that enables us to maximise our reach for service and support.

We are dedicated to the long term position of Panasonic Commercial Food Service products, so much so that we offer up to 2 years warranty on parts for our commercial series refrigeration range, backed up with a nation-wide service team and a unique in-field warranty on our microwaves, where any issues or delays in repairing your microwave will be covered by a loan machine until the repairs can be completed!

So with this network and experience we promise to deliver: Quality, Innovation and Experience.

And we guarantee it!

## Commercial Refrigerators HP SERIES UPRIGHT & UNDERBENCH

- Pillarless Design
